-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election of the invention of Group I (claims 1-8) in the reply filed on 5 October 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 112

2. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The preamble of claim 1 recites "A head **for use with** a toothbrush". This would suggest that the claims are drawn to the sub-combination of the head which is capable of being attached (by welding) to the toothbrush. The last two lines of claim 1 contradicts the preamble and brings into question whether the claims are just to the head which is capable of being sonically welded to the toothbrush or to the assembled or complete toothbrush with the head welded thereto.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States

Art Unit: 1744

only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-8 are rejected under 35 U.S.C. 102(e) as being anticipated by Pfenniger et al (USP 6,988,777). The patent to Pfenniger discloses, in the embodiment of figures 12a and 12b (column 7, lines 41-58) a head for attachment by sonic welding to a toothbrush which head includes a rigid outer perimeter portion (22) of polypropylene (see column 2, lines 51-54) as well as a tuft field (2a) of a flexible elastomeric (see also column 2, lines 54-56) material having a hardness of less than 70A (column 2, lines 36-39) and which field includes at least one aperture receiving a tuft with the tuft ends melted to either form a bristle melt (11).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patent to Bouchiere is pertinent to the welding and the others to flexible bristles fields.
